

GAJ OS Bulwark 4.13

Release Notes

Build V4.13 dc/nu Series | Jan. 2022

[Click Here For More Info](#)

GAJSHIELD

Features:

1. Option to reset password of admin from Firewall Login Page.
2. Name length restrictions removed from following tabs:
 - (i). Services
 - (ii). Service Group
 - (iii). FQDN

Bug Fixes:

1. Fixed issue where dlp template for specific size upload did not get blocked in Google Drive.
2. Fixed issue where Alias could be deleted even when used in rules.
