CIE CONTEXTUAL INTELLIGENCE ENGINE

GAJSHIELD

New Features :

1. Modified System Resources and Bandwidth Summary charts on Dashboard.

2. OTP field will be available on login page when OTP configuration is enabled for any user.

3. Expiry date of CA Certificate will be displayed on Dashboard.

4. Export to csv enabled for the tabs having csv upload option.

Bug Fixes:

1. Fixed issue for restart single DHCP interface to dynamically assign IP address.

2. Fixed issue to avoid deleting User certificate if used in VPN tunnel.

3. Fixed issue to allow to add QoS Queue to URL QoS Policy.

4. Fixed issue for VPN policy tab where SHA2 wasn't displayed in Authentication Algorithm dropdown.
