

GAJ OS Bulwark 4.26

Release Notes

Build V4.26 dc/nu Series | Feb. 2023

[Click Here For More Info](#)

GAJSHIELD

New Features:

1. Static Routes can now be added without Gateway Host.

Bug Fixes:

1. Fixed error on starting SNMP service if Network Group is used in SNMP Configuration.
2. Resetting interface will give error if Interface is used in WAN Failover.
3. Deleting QoS Queues will give error if it is applied in Firewall Rules.
